PRODUCT

N.B. table top in pictures are Ø120 cm

// Bron/black stained oak

DESCRIPTION

Space Copenhagen is the designer behind the classic Moon Collection; a series of organic rounded tables for both domestic and public spaces. The interplay between the beautiful solid oak table top and the smooth half – or full moon shaped base, with bevelled surface, creates a simple yet strong identity for the design. The result is an elegant table series with clear references to traditional Danish carpentry.

Through their fascination of the contrast between variations of surfaces and finishes, Space Copenhagen has designed their first table collection for GUBI. The collection spans from small and low round lounge tables in four sizes to three large and generous dining tables.

Table

The table collection consist of round and oval coffee and dining tables. The table is available with matt oil finish or high gloss varnish. The matt oil finish table is blockboard oak that is black stained and oiled.
