

FIBER SIDE CHAIR – TUBE BASE

ISKOS BERLIN ON THE DESIGN “One of the most difficult and noble disciplines is to design without eccentricity, creating simple, well-functioning and almost ordinary objects that nevertheless have strong identities. We designed Fiber Side Chair to do just that through a clear sculptural language that refuses to compromise on comfort. It’s a chair stripped of all unnecessary layers. The iconic form marries soft, embracing curves with an innovative wood fiber composite, giving Fiber Side Chair a unique expression and tactile texture.”
