

# FIBER STOOL – TUBE BASE

**ISKOS-BERLIN ON THE DESIGN** “One of the most difficult and noble disciplines is to design without eccentricity. To create simple, well-functioning, almost ordinary objects that nevertheless have strong identities. We designed Fiber Chair to do just that with a clear sculptural language that refuses to compromise on comfort. It’s a chair stripped of all unnecessary layers. The iconic form marries soft, embracing curves with an innovative wood fiber composite, giving Fiber Chair a distinctive tactile texture.
