According to Upholstery

Godot is a comfortable and generous sofa series comprising 2- and 3-seater sofas as well as an armchair. The inner "spaces" of the sofa are designed in sizes allowing for a comfortable seating position without limiting the freedom of movement and the freedom to stretch your legs. The soft shapes of the upholstery are deliciously inviting and, also, constitute a marked contrast to the sofa's exterior of more simple and geometrical forms. The interior belongs to the occupant and the exterior belongs to the room.

About the Designer

The company works within the fields of industrial, furniture and graphic design. The firm was only established in late 2010, but Boris and Aleksej have been working together for a number of years. In 1987, Boris co-founded Komplot Design, where Aleksej was employed as an assistant for more than 11 years. This long and fruitful cooperation has allowed them to develop a shared philosophy of design.
