ZESTY chair

DESIGN

o4i Designstudio, Sweden

o4i Design Studio was founded in 2005 by Henrik Kjellberg and Jon Lindström. Being based in Stockholm, Sweden, the studio focuses on contemporary public and domestic furniture and develops unique concepts for international market. Clients include Blå Station, Gärsnäs, Fritz Hansen, Martela and others. Their work has received several awards.

"We have a multidisciplinary approach to product design based on modern industrial parameters in the context of responsible mass production. We are driven by a curiosity for new technology, behaviours, materials and processes and find as much joy in exploring the possibilities of improvement within given strict limitations as we do in seeking the solutions that challenge what's expected. We believe in observation, conversation and collaboration. In the design process we believe $1 + 1 = 3$," say Henrik Kjellberg and Jon Lindström.

APPLICATION

Conference halls, meeting and waiting areas, museums
Residential market- dining chair

MATERIAL

Form pressed plywood

DIMENSIONS:

W 45 x D 55 x H 46/78,5 cm

Organic forms and lightness of the chair in combination with extremely strong plywood technology make ZESTY suitable for any public or private environment. With a minimum of material and a maximum of comfort and style it brings out the best of moulded plywood. The characteristic leg frame and a slender Zesty profile will make the interiors outstanding and remarkable.

Zesty is assembled by 3 parts only and weights as little as 2,9 kg.

ZESTY is stackable up to 15 pieces

MATERIALS

Clear lacquered birch, oak, walnut, zebrano, wenge. Bleached or stained birch. Bleached or stained oak. Customer specified stains. NEW! Pigmented lacquer in any RAL colour.

OPTIONS

Upholstered seat pad, removable
Upholstered seat and back, removable
Linking

Tested according to DIN EN 1728, DIN EN 16 139, strength and durability tests required for public furniture.
