PRODUCT FACT SHEET

MS SERIES - MS022

The MS Series is a clean, cool and modern lighting collection created by contemporary Danish architect and designer Mette Schelde. A modern and minimal reinvention of classic lamp designs, the MS Series balances minimalist transparency with soft curves as the lamps' clean lines meet Schelde's signature circle shape found throughout much of her work. All lamps in the series feature an integrated dial for turning on and dimming control.

DESIGNER / YEAR OF DESIGN

Mette Schelde, 2023

ABOUT THE DESIGNER

In 2012, Schelde established the studio from where she designs furniture, lighting, and architecture. Her designs are functional and made of simple constructions in a sculptural universe. Schelde combines traditional materials such as wood, glass, and metal with sensual functions. With simple lines and compositions, her studio explores new methods and technologies that point both back and forth between tradition and renewal.
